

450 Colonels Out; 56 Stay As Generals

WASHINGTON.—President Eisenhower has signed an executive order which will retire 450 of the 506 senior colonels whose automatic retirement last year and this had been stopped.

Former President Truman had permitted the Army to retain on active duty up to 60 per cent of the senior colonels on the Army promotion list whose retirement was required under the provisions of section 514d(3) of the Officer Personnel Act. This part of the law made it mandatory that the Army retire those colonels not on a recommended list for promotion to brigadier general when they had had 30 years' service or five years in permanent grade of colonel.

Selected for promotion to Brig. Gen. (perm.) and therefore no longer vulnerable to separation (36) in order of seniority as selected:
